

MH170-1A

Accelerometer Mounting Pad for High Temperature Dissipation and Electrical Isolation, 1/4-28 Tapped Sensor Mounting Hole, 1/4-28 Mounting Stud

VIBRATION ANALYSIS HARDWARE

Product Features

Electrical Isolation: = 10kv DC

Heat Isolation Performance: Effectively Dissipates 169 °C (336.2 °F) between machine surface and mounted sensor - Based on Controlled Testing Using a 250 °C Hot Plate for 10 Hours at 21 °C Ambient Conditions.
